

# Global Math Challenge Selections

## 1. What is Global Math Challenge?

Global Math Challenge is one of the biggest worldwide online contests for math lovers from age 6 and up. More than 280,000 challengers have participated since the first edition to test their ability to think flexibly and mathematically, as well as their reading comprehension and information processing skills.

This time in “Global Math Challenge Selections” we have selected the best puzzles out of those that were provided in the past editions.

Managed by: Sony Global Education, Inc.

## 2. When

Individuals: October 26th – 28th, 2018

Schools: October 15th – 28th, 2018

\*Registration is open at any time during the above period.

\*A device with an internet connection is required.

\*Results will be announced on **November 5** on My Page.

## 3. Courses

Essential: Age 6-7, 10 questions, 30 minutes

Intermediate: Age 8-9, 12 questions, 40 minutes

Advanced: Age 10-11, 12 questions, 40 minutes

Master: 12 and up, 12 questions, 40 minutes

\*We recommend you try out some sample questions of each course on the GMC website to select a course of an appropriate difficulty level.

## 4. How to take part

1. Create a GMC account at [www.global-math.com](http://www.global-math.com).

**You can create an account any time regardless of the contest period.**

If you are taking part individually, please sign up to create a “Home” account. If you are a teacher and want your students to take part,

please choose the "School" account.

2. Registration for the contest will be open during **September 25 – October 28**. Log in with your GMC account and go to the entry page to enter the contest.

## 5. Price

### Individuals:

- Trial Plan: Free (includes corrections and score reports)
- Standard Plan: **5 USD** per account (includes corrections, score reports, and detailed test analysis to review your results.)

### Schools:

- **10 USD** per class of up to **10** students: In addition to the content provided in the Standard Plan, teachers will be able to receive analysis reports of their school.
